Overview of Ministry

“Taking the Hope of Christ to students, through their teachers.”

The International School Project (ISP) is a strategic two-week mission opportunity for individuals and churches. Team members become small group facilitators in a conference setting, as teachers are trained to use the powerful JESUS film, an ethics curriculum, and Biblical principals with their students.

Working in partnership with the Ministries of Education in 15 countries, ISP has trained more than 71,000 public school teachers. Many atheistic, Buddhist, or even Muslim teachers have become tremendous witnesses for Christ in Russia, Kyrgyzstan, Mongolia, Iraq, and other countries. Over 32,000,000 students have learned about Jesus from their teacher.

Potential TBG Opportunities to Get Involved

1. Facilitate a discussion group of 10-12 teachers during a two-week overseas training conference
2. Travel July 7-9 or 14-16 to Guatemala to see a training conference and meet transformed teachers
3. Introduce your church to a mission strategy that will help them reach the world for Christ.
