Overview of Ministry

The mission of Birth Choice Health Center is to provide medical diagnosis, treatment and educational information to individuals struggling with the repercussions of their sexual choices; empowering them to make healthy life-affirming choices consistent with the inherent value of every human life.

Birth Choice is an island of rest in a turbulent sea. Birth Choice has answers when only questions stack up one by one. Birth Choice hears when no one will listen. Birth Choice is a respite where families can think and solve their problems. Why do people come to Birth Choice? The young need answers on sexual health. Women fear alienation when a possible pregnancy looms. Entire families, on the brink need space from each other to think about what to do next. Birth Choice is the conduit that holds the people-strings together. We are dedicated professionals and volunteers that give our time and expertise to point people in the direction of health and purpose.

For the past 25 years, Birth Choice volunteers and professionals have reached out to over 40,000 women and men dealing with sexual abuse, pregnancy, sexually transmitted disease, family planning information and education, medical, legal and psychological referrals, mentoring program, sexuality education, housing and shelter referrals, (Founder Kathleen Eaton also established Toby's House Maternity Home, a separate 501 (c) (3) when the need for housing homeless and pregnant women became overwhelming). She is also the founder of Teen Integrity, an abstinence education program, also a separate 501 c 3.

Birth Choice Medical Clinics is now in four locations in Orange County California. Irvine, Placentia, Santa Ana and Mission Viejo are using a state-of-the-art Ultrasound process for diagnosis. Our mission is to treat, prenatal to delivery, women who desire to carry their babies to term and do not have the support to do so. In addition, we diagnose and treat men and women with sexually transmitted diseases.

Potential TBG Opportunities to Get Involved.

1. Prayer-Please add Birth Choice to your prayer list. Pro-life ministries are being attacked on a daily basis. Misinformation and lies are being perpetrated by abortion groups and their well-funded national organizations. Their argument is that we aggressively discourage women from having an abortion, not that we offer women a choice for life.
2. Volunteer-We have several volunteer opportunities including board members, PR and Marketing for a branding campaign, woman's auxiliary, client and organizational advocates, fundraising and church liaisons.
3. Business owners who have expertise in fields useful to Birth Choice such as advertising company, business consulting, fundraising and development.
4. Attend our banquet on Nov. 2, 2006 at the Balboa Bay Club and fill a table of friends and family that are interested in befriending and supporting Birth Choice Medical Clinics. Call Kathleen Eaton 949.364.6973
