Overview of Ministry

Over 10,000 churches in 84 nations are equipping their church leadership and providing ministry training to their members using a revolutionary new tool called the International School of Ministry (ISOM). Sometimes referred to as the training equivalent of the ‘Jesus’ movie, the ISOM contains 160 life messages taught by over 30 renowned instructors. The program uses a bi-lingual video format with notes and is available in more than 60 languages.

Potential TBG Opportunities to Get Involved

1. We need the sponsorship of critical languages. Each translation opens the doors for thousands of leaders in that people group to be trained. Approximate cost per language (voice & notes) - \$15,000
2. For \$950 we can put a full Bible school any place on earth. These schools need sponsorship.
